Dear Parents and Carers,

**Head lice & Nits**

We have recently been made aware of a case of head lice in Dragonfly Class. We therefore ask all parents and carers to check their child(ren)'s hair and remain particularly vigilant over the coming weeks.

Regular checking using a fine-toothed detection comb is the most effective way to identify head lice early. Children with long hair are encouraged to keep it tied back.

The NHS recommends using a detection comb on wet, conditioned hair to identify and remove head lice. Treatment products are also available from your local pharmacist if required.

Further information can be found on the NHS website:

https://www.nhs.uk/conditions/head-lice-and-nits/

If you discover head lice in your child's hair, please begin treatment promptly and let the class teacher know.

Thank you for your support in helping to reduce the spread of head lice within our school community.

Yours sincerely

Ms Deborah Coggin
